

## Weekly report

### 1 **My Goals from last week**

- Continue studying Srikanth KVS' code for waypoint path-planning with a view to applying it to the mosquito population
- Read "Detecting Insect Flight Sounds in the Field: Implications for Acoustical Counting of Mosquitoes"

### 2 **My Accomplishments this week**

- Read "Detecting Insect Flight Sounds in the Field: Implications for Acoustical Counting of Mosquitoes"
- Read papers assigned for lab meetings
- My apologies, but I didn't accomplish much associated with the lab this week while trying to take care of a number of things around the house and with the children.

### 3 **My Goals for next week**

- I will be out of town for the next couple of weeks and will not have a computer with me.

### 4 **Meeting with Dr. Becker TBD**

We will meet via Skype but have no meeting scheduled at present.
