

Weekly report

1 **My Goals from last week**

- Catch up on reading assigned papers
- Attend Houston Robotics Day at UH-CL

2 **My Accomplishments this week**

- Read papers assigned for lab meetings while I was out of town
- Attended Houston Robotics Day
- My apologies, but I didn't accomplish much associated with the lab this week while trying to take care of a number of things around the house and with the children.

3 **My Goals for next week**

- Continue studying Srikanth KVS' code for waypoint path-planning with a view to applying it to the mosquito population
- Continue looking at papers related to exploration v. exploitation

4 **Meeting with Dr. Becker TBD**

We will meet via Skype but have no meeting scheduled at present.

Please note that I am without baby-sitting again this week and likely will not be able to accomplish much.
