2016-06-01 Report

1. GOALS for this week

- Cut the other half of table top
- Help Haoran control ESC with arduino
- Help Srikanth control servo with RC transmitter
- Design kilo bot charger
- Find paper about mind-controlled robot/UAV

2. ACCOMPLISHMENT this week

- Finished table top
- Made servo controlled with RC transmitter, attached to hexacopter
- Started Kilo bot charger design
- Ordered materials for hexacopter upgrade

3. GOALS for next week

- Make net-compatible landing gear for hexacopter
- Attach LEDs to hexacopter for night flying
- Control ESC with arduino
- Find interesting paper about mind-controlled robot/UAV
- Finish Kilo bot charger design

4. Dr. Becker needs to

-
