2016-06-15 Report

1. **GOALS for this week**

- Make net-compatible landing gear for hexacopter
- Attach LEDs to hexacopter for night flying
- Control ESC with arduino
- Find interesting paper about mind-controlled robot/UAV
- Finish Kilo bot charger design
- Order shirts

2. **ACCOMPLISHMENT this week**

- Hexacopter flew, with LED and new landing gear

3. **GOALS for next week**

- Have fun at RSS
- Find out more about RSS papers and authors
- Maybe make some quick landing gear and attachment designs
- Work with Vinh better

4. **Dr. Becker needs to**

- Set up weekly meeting time with Vinh, or I can meet with him
- Schedule monthly lab cleaning date
