

## Weekly report

### 1 **My Goals from last week**

- Continue studying Srikanth KVS' code for waypoint path-planning with a view to applying it to the mosquito population
- Continue looking at papers related to exploration v. exploitation
- Provide feedback to C. Losey for his updates from early in July

### 2 **My Accomplishments this week**

- Read paper assigned for lab meeting.
- Read S. Shahrokhi's paper and made notes for improvement (not yet submitted to the author).
- Requested further information from C. Losey and read his more recent report.
- Read a couple of papers associated with exploration v. exploitation.

### 3 **My Goals for next week**

- Continue studying Srikanth KVS' code for waypoint path-planning with a view to applying it to the mosquito population
- Continue looking at papers related to exploration v. exploitation
- Provide feedback to C. Losey for his recent updates
- Provide feedback to S. Shahrokhi on her draft paper

### 4 **Meeting with Dr. Becker TBD**

We will meet via Skype but have no meeting scheduled at present.
