Weekly report

1 My *Goals* from last week

- Complete Mathematica Demonstration for DH parameters

- Review articles that cite "Detecting Insect Flight Sounds in the Field: Implications for Acoustical Counting of Mosquitoes"

2 My *Accomplishments* this week

- Completed edits on Mathematica demonstration for DH parameters - accepted by Mathematica

- Reviewed articles that cite "Detecting Insect Flight Sounds in the Field: Implications for Acoustical Counting of Mosquitoes" and submitted notes to Dr. Becker

3 My *Goals* for next week

- Continue studying Srikanth KVS' code for waypoint path-planning with a view to applying it to the mosquito population

- Read "Detecting Insect Flight Sounds in the Field: Implications for Acoustical Counting of Mosquitoes"

4 Meeting with Dr. Becker TBD

We will meet via Skype but have no meeting scheduled at present.
